private partnership higher...

**New process to save
Army money, yield
cheaper rounds**

A new process at McAlester Army Ammunition Plant will make more recovered projectile bodies viable for reuse in the production of field artillery training rounds and provide the military with a cheaper and safer munition, Army officials said. An estimated 95 percent of obsolete and...

**JMC's Centralized
Ammunition Management
highlighted in STAND-TO**

Joint Munitions Command's Centralized Ammunition Management process helps to change the logistics of the way the U.S. Army issues ammunition. Centralized Ammunition Management allows the integration of wholesale and retail ammunition management.

**Rock Island Arsenal
observes African American/
Black History Month**

The first black U.S. Navy submarine commander didn't always get the respect from sailors that officers are due. But he followed his heart during racially heated times to one day find himself making history. About 150 people gathered in Heritage Hall for the Rock Island Arsenal's...
